RE: File No. 5202 – Mass Messaging System

The following questions were submitted.

Question

1. Why do you ask if "The system can be integrated with a Windows 2003 network utilizing Active directory and utilities a compatible database system" if you will be using Century Consultants Star Student to send student data to the vendor?

Answer

1. We ask if the system can be integrated with a Windows 2003 Active Directory for authentication purpose only. Where ever possible CPS is using our single AD for authenticaton even with remote applications.

Question

2. It lists desktops. We typically charge per student basis. How should we interpret Desktops?

Answer

2. The number of desktops is only supplied for any applications that may license based Upon number of desktops
.

All other particulars remain unchanged.
